

About Linstone

Linstone is registered under the Charitable Rules of the Industrial & Provident Societies Act 1965.

We became operational on 28th February 1998 as a result of a large scale voluntary transfer of around 1900 properties from Scottish Homes.

Our properties are located throughout Renfrewshire, in Paisley, Renfrew, Bridge of Weir, Kilbarchan with the majority in various estates throughout Johnstone and Linwood.

Tenants who transferred to Linstone in 1998 have a Preserved Right to Buy their current home. This means that our housing stock has reduced and currently sits at 1572.

Linstone's primary business is to provide an effective and efficient customer focused service to its tenants.

We continually strive to involve tenants in the decisions which affect their homes and communities.

In addition, Linstone is Factor to around 500 owner occupiers and provides an Estate Manager Service to approximately a further 2000 owners.

In the above roles we organise common repair work within the blocks of flats and estate and recharge their share of this to owners.
